Summary

Computer Science (AI/ML) undergraduate with hands-on experience building production-grade backend services and ML systems. Developed 3+ full-stack applications using React, Node.js, and FastAPI, and shipped features for live client projects. Proven leadership, teamwork, and communication skills demonstrated through cross-functional project delivery.

Education

Manipal University Jaipur — Jaipur, Rajasthan
B.Tech in Computer Science and Engineering (AI and ML), Final Year — *2023 – 2027*

Experience

Software Development Intern — Jun 2026 – July 2026
TruAdaptiv Systems Pvt. Ltd. — *Remote*

- Built **backend services** and REST APIs using Python, FastAPI, PostgreSQL, and Redis, maintaining a 256-test automated regression suite at **100% pass rate** across sprints.
- Designed **JWT** authentication with TOTP for admin roles, single-use refresh tokens, and fail-closed Redis session handling.
- Built React 18 admin dashboards with **Celery** async job-reprocessing workflows, cutting turnaround time by **40%**.
- Integrated an AI pipeline for transcription, speaker diarization, and audio denoising; owned unit testing, documentation, UAT, and live client deployment on **AWS**.

Projects

Digital Register for International Students | React, JavaScript, HTML/CSS — Sept 2025 – Apr 2026

- Directed a cross-institution team (with **Southern Federal University, Russia**) as **Team Lead** and **Frontend Developer** to build a full-stack student-monitoring platform; built the user interface in React.

Mentor Scheduling & Document Management Platform | React, Node.js, MySQL — Aug 2025 – Dec 2025

- Designed an **end-to-end** scheduling and document-workflow platform, optimizing database queries to cut query latency by **30%** under concurrent load.

Fake Recruiter & Job Scam Detector | Python, XGBoost, Streamlit — Aug 2025– Sept 2025

- Trained an XGBoost fraud-detection model on the EMSCAD dataset (18K postings) with SMOTE class balancing, achieving **86% recall**; deployed as a real-time Streamlit scoring app.

Roles and Responsibilities

Student Placement Coordinator — Apr 2025 – Dec 2025
Manipal University Jaipur

- Facilitated placement drives; mentored peers on resume prep and technical interview strategy.

Campus Ambassador & Open-Source Contributor — Jun 2025– Aug 2025
GirlScript Summer of Code (GSSoC)

- Contributed to open-source repositories via Git/GitHub (issue triage, PR reviews).

Head of Technical Projects — Sept 2024 – May 2025
IEEE WIE, MUJ

- Grew IEEE WIE website traffic to **500+ visitors/month**; organized **20+ technical workshops** for **200+** students.

Genesis Core Committee Member — Jul 2024– Oct 2024
IEEE, MUJ

- Led **10+** flagship events with **2,000+** participants; worked with **60+** volunteers, achieving 30% YoY growth.

Achievements

Two-time recipient of the Student Excellence Award for academic and extracurricular performance

Finalist, **MUJ HackX 2024**, **Woodpecker Hackathon**, **International Innovation Challenge**; **Special Mention**, Apotheosis Hackathon (IEEE WIE)

Solved **250+** problems on LeetCode (DSA, algorithmic efficiency)

Technical Skills

Languages: Python, C/C++, JavaScript, SQL, HTML/CSS

Frameworks & APIs: FastAPI, React, Node.js, REST APIs, TensorFlow, LangChain

Databases & Infra: PostgreSQL, MongoDB, MySQL, Redis, AWS, GCP, Git/GitHub

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Concepts: DSA, OS, DBMS, Deep Learning, ASR, NLP, LLMs, RAG Pipelines, CNN, Unit Testing

Certifications

Cisco: Python Essentials, CCNA, Networking Essentials **Oracle:** Database Foundations, Database Design, SQL Programming
NPTEL: Machine Learning, Data Structures & Algorithm, Deep Learning **CodeChef:** DSA Lab
